El Lic. Cristobal Marte Hoffiz habla sobre el programa de Solidaridad Olímpica. Disponible para todas las Federaciones Nacionales. Solo deben hacer un esfuerzo y comunicarse con sus Comités Olímpicos para solicitar ayuda. Cada año se pierden cientos de millones de dólares en este fondo. Sabe que el problema principal es que un 75%-80% de nuestras Federaciones Nacionales no saben aplicar para recibir estos fondos, incluso muchos de los Comités Olímpicos Nacionales tampoco saben aplicar a estos fondos. / **Mr. Cristobal Marte Hoffiz speaks about the Olympic Solidarity program. This is available for all National Federations. All they have to do is make the effort and contact their Olympic Committees to request assistance. Each year hundreds of millions of funds are lost. He knows the main issue is that 75-80% of National Federations do not know how to apply for the funds, their Olympic Committees don't know how to apply for these funds either.**

Propuesta / Proposal: El Lic. Cristobal Marte Hoffiz pide a Mushtaque que cree una presentación en conjunto con el Prof. Nelson Ramírez y el Centro Regional de Desarrollo que explique paso por paso lo que se debe hacer para aplicar a estos programas y esta ayuda. Esta presentación deberá ser distribuida a todas las Federaciones Nacionales categorías 1 y 2. /

Mr. Cristobal Marte Hoffiz asks Mushtaque to create a presentation with the help of Prof. Nelson Ramirez and the Regional Development Center that explains a step by step process of how to apply for these programs and assistance. This presentation must then be distributed to all National Federations.

El Prof. Mushtaque Mohammed aclara que los fondos recibidos del programa Solidaridad Olímpica pueden ser utilizadas para el desarrollo de las Federaciones Nacionales, entrenamiento y desarrollo de instructores y desarrollo de los equipos nacionales. Pero no cubre viajes y viáticos para los equipos o instructores a participar en los proyectos. / **Prof. Mushtaque Mohammed clarifies that the Olympic Solidarity program can be used for the development of National Federations, training and development for instructors and development of the national teams. But it does not cover flights and per diem for teams or instructors participating in these projects.**

El Prof. Nelson Ramirez dice que en el mes de mayo tiene pautada una reunión con el Comité Ejecutivo de Panam Sports. Se compromete durante esta reunión a conversar con la persona encargada del programa de Solidaridad Olímpica para ver cómo pueden trabajar en conjunto para impartir un seminario que explique los pasos necesarios para solicitar estas ayudas, para que las Federaciones Nacionales puedan beneficiarse de unos programas que estarán disponibles a través de Panam Sport. / **Prof. Nelson Ramirez states in the month of May he has a meeting scheduled with the Executive Committee of Panam Sports. He commits to talk to the person in charge of the Olympic Solidarity program during this meeting to see how they can work together to hold a seminar that explains the necessary steps to apply for this assistance, so that National Federations can benefit from programs that will be available through Panam Sports.**

b. FIVB Volleyball Empowerment Survey

Es importante que todas las Federaciones Nacionales completen esta encuesta de la FIVB. Mediante esta encuesta se analizan las Federaciones Nacionales que se van a beneficiar de los proyectos y cursos que ellos imparten. Mediante estas encuestas se pueden determinar las áreas que necesitan más atención en estas Federaciones Nacionales. / **It is important that these National Federations complete the FIVB survey. 5. Empoderamiento en Voleibol FIVB / **FIVB Volleyball Empowerment**

Mark Eckert

Presidente USA Volleyball / USA Volleyball President

El Sr. Mark Eckert explica que el programa de Empoderamiento de la FIVB esta abierto a Federaciones Nacionales categoria 1-5. Nos dice que hay dos formas de aplicar para la asistencia ofrecida por la FIVB: / **Mr. Mark Eckert explains the FIVB Volleyball Empowerment program is open to category 1-5 National Federations. He states there are 2 ways to apply for the assistance offered by the FIVB:**

1. Por Proyecto para Federaciones Nacionales categorias 1 y 2 los cuales ofrecen diversas oportunidades de desarrollo. / **Project based for National Federations categories 1 and 2 which offer various development opportunities.**
2. Enfocado para Federaciones Nacionales categorias 3, 4 y 5. / **Targeted for National Federations categories 3, 4 and 5.**

Un ejemplo de un Proyecto enfocado es Francia: con su programa de voleibol de playa. Son los campeonatos Olímpicos pero no tienen buen equipo en voleibol de playa, ya que ellos seran sede de los Juegos Olímpicos, deben tener una Buena participacion en el lado de la playa. Asi que la FIVB va invertir en entrenadores y desarrollo. / **One example of targeted based projects is France: with their beach volleyball program. Reigning Olympic champions but not very good in beach, since they are hosting Olympics they would want to have a good showing on the beach side. So the FIVB will invest in coaches and development.**

Un requisito indispensable es que se debera completer la encuesta. A partir del momento en que se complete la encuesta es que la FIVB toma la decision de a cuales paises va asistir y con cuales proyectos. / **It is an indispensable requirement that the survey is completed. From the moment the survey is completed is when the FIVB makes decisions on which countries they will provide assistance to and for which projects.**

b. Sr. Augusto Sabbatini

FIVB // PROJECTS PLATFORM - Coach Support for the Technical and Tactical Development of
National Teams of SURINAME
From JUNE 03, 2021 to SEPTEMBER 03, 2021
BRAZILIAN COACH: AUGUSTO JOSÉ SABBATINI

- Total hours worked with the SURINAM Volleyball Men's National teams, from JUNE 03 to SEPTEMBER 10
- Objective in the second month of work was to continue to increase the individual physical and technical level
- Beach Volleyball Teams, hours of training = 57 hours
- Number of women attended in training: 02 females ages 13 - 18
- Number of men attended in training: 13 males ages 15 - 34
Note: The number of athletes during the week is smaller, because most of them work or study and there is also no constant presence of players in training, they miss training.

FIRST MONTH

Total hours worked with each team in the month of June.

Senior Men's Team = 17 hours

U-23 Men's Team = 23 hours

U-23 Women's Team = 5 hours

Technical summary of the month: Due to several stoppages in training because of Covid-19 and there are not many players in training, the physical evolution, individual technical and tactical is very slow. Because there is no secret, who trains more, evolves more, as simple as that.

SECOND MONTH

Total hours worked with the team in the month of July.

Total planned hours of training = 79 hours

Senior Men's Team hours of training = 55 hours

Hours Untrained in July = 24 hours

NOTE: Days 08 to 17/07/2021 / Days untrained / Note: Days 9 and 16 two Fridays rest days = 0 / 8 Training weekdays untrained with 3 hours each = 24 hours untrained.

Technical summary of the month: Due to several training stoppages in the two previous months because of Covid-19 and the inconstancy of daily presence in training (Example: The player comes one day and doesn't come the next day), the physical, technical and individual tactical evolution is very slow. As players can only train at night, I have not been able to do strength training in a gym. I chose to focus more on individual technical training of volleyball fundamentals, with execution of strength work with medicine ball and circuit training with displacement and movement of volleyball fundamentals to increase the players' resistance and agility, and on team tactics in general.

THIRD MONTH

- Total hours worked with the team in the month of August.
- Total planned hours of training = 68 hours
- Senior Men's Team hours of training = 64 hours
- Hours Untrained in July = 04 hours
Note: These non-worked hours refer to days when the training was scheduled for 3 hours, but lasted for 2 hours.
- Technical summary of the month:
As players can only train at night, I have not been able to do strength training in a gym. I chose to focus more on individual technical training of volleyball fundamentals, with execution of strength work with medicine ball and circuit training with displacement and movement of volleyball fundamentals to increase the players' resistance and agility, and on team tactics in general.
- GENERAL REMARKS:
- The goal here in Suriname was to collaborate when requested by the under23 coaches, with the men's and women's national teams and my priority was to coach the men's senior national team, in preparation for the Pan Americano, in Santo Domingo, from 1st to 10th of September 2021.
- Due to the Covid-19 pandemic, classes were suspended until August 8th. Therefore, due to the pandemic and the country in lockdown, people are not allowed to leave the house and gather, the activities in schools and seminars that could be carried out by me here in Suriname, did not happen. We only had permission from the Government (Ministry of Sports and Ministry of Health) for the training of the under23 women's and men's teams and the senior men's team.
- In my training plan, the Federation of Volleyball of Suriname was requested, an academy for strength training, but, due to the pandemic, the academies were closed until August 8th and now close to the competition, I decided to continue with the work of fitness performed on court
- My mission with the FIVB here in Suriname ends on September 3, 2021. However, due to the date of the Pan American Cup, which will be from September 1 to 10, 2021 in Santo Domingo in the Dominican Republic, the Suriname Volleyball Federation through its President, Mr. Lionel Blokland, requested that I stay here until September 10th to be the Head Coach of Suriname senior team, at the Pan American Cup in Santo Domingo, Dominican Republic.

• Technical summary of the PAN-AMERICAN CUP 2021:

- In my evaluation, the Suriname team obtained an improvement in its tactical organizational structure. It was a more organized team in court. What was missing in my opinion, it was more training time, to get an individual technical improvement of our players. In addition, I want to salient that the fact that we have not worked the strength and reaction with weights let our team visibly weaker than the other five.
- This Surinamese team has a lot of potential. They just need to follow a plan by their Federation and coaches.
- Suriname has an active president who is committed to developing and improving the level of its players. In my humble opinion, this is the primary factor for all teams to be successful.
- Congratulations Mr. Lionel Brocland, for his dedication and passion to our volleyball.

NOTE: FOR THE BEST DEVELOPMENT, IT IS NECESSARY TO PARTICIPATE IN MORE COMPETITIONS

FIVB // PROJECTS PLATFORM - Coach Support for the Technical and Tactical Development of National Teams of ANTIGUA AND BARBUDA

• International competition | Junior Pan American Games U-23 in Cali Colombia

December 5th, 2021.
 Pan American Sports in Cali, Colombia as hosts for the first Junior Pan American Games. More than 3,500 athletes between ages of 14 and 22 will compete in 27 sports with qualification for the Santiago 2023 Pan American Games. The Antigua and Barbuda compete with 2 players in women's beach volleyball. Players: ~~Ravana~~ Dana Denis Regis and ~~Tyke~~ Desjana Hawkins
 Coach: Mr. Olsen Joseph

NOTE: Although the results were not the desired ones, the most important thing in my analysis is that this high level competition showed the players and the coach that it will necessary a lot of work, a lot of training and a lot of competitions in the planning for 2022.

For the future, it will be necessary a greater commitment of Antigua and Barbuda Amateur Volleyball Association, and after receiving the competition calendars of all categories for the year 2022, start, together with its coaches, a training plan in advance for the competitions. This commitment between everyone, Antigua and Barbuda Amateur Volleyball Association, Coaches and players will be very important. Only then will the results happen.

GENERAL REMARKS:

In my opinion, Antigua has everything to improve your beach volleyball game. Here is the President of the Amateur Volleyball Association, Mr. Wilbur Harrigan, who is passionate about volleyball, has good coaches, good senior players and some players with a lot of potential for the future.
 With a good training planning, participating in various competitions in all categories, with the commitment of coaches and players, everything can improve. I am sure of that. Let's think together about the future after here.

NOTE: FOR THE BEST DEVELOPMENT, IT IS NECESSARY TO PARTICIPATE IN MORE COMPETITIONS

REMARKS UNTIL MOMENT:

In St. Lucia, we are finishing the second month (day 20th), of six months of work. Here we also have great chances of doing a good job, because we have good FIVB level 1, 2 and 3 coaches, the conditions for training are good. We have several beach volleyball courts all over the island and a sports complex, also with good conditions to develop and improve the level of our players and our national teams. We have good experienced players here and some young and talented players.

I think our biggest challenge will be to bring back St Lucia among the best in the Caribbean in beach volleyball.

Let's go, the future is right there.

NOTE: We need to participate in more competitions. Only in this way can Federations plan and develop their National teams, motivating their coaches and players. Planning and train for competitions.

One factor to take into account is the selection process to determine which countries will receive financial assistance. El Lic. Marte aclara que la idea original la presento el Sr. Wilbur Harrigan. Explica que NORCECA y FIVB proveen fondos de casi USD10,000 cada tres meses para las Federaciones Nacionales y se puede usar este dinero para cubrir los gastos. Explica que si los presidentes de las zona estan de acuerdo con esta propuesta, se pueden usar estos fondos para pagar pasaje aereo, viaticos y alojamiento a entrenadores que vayan a Republica Dominicana o cualquier otro pais que decidan hacer una pasantia de un mes para aprender las practicas de engrenamiento de ese pais y luego llevarlas a su propia Federacion Nacional. / **Mr. Marte clarifies that Wilbur Harrigan came up with the original idea. He explains NORCECA and FIVB provide funds of almost USD10,000 every 3 months for assistance to National Federations and this money can be used to cover these expenses. If the zonal presidents agree to this proposal, these funds can be used to pay for flights, per diem and room and board for coaches and instructors can go to Dominican Republic or any other country of their choosing for a one month internship to learn the training practices of these countries and they can go back and apply them in their own Federations.**
